# ICT Industry Forum

**11th May 2010**

*Garey Neenan*

*DBE Data Centre Services*

- **Expansion of ePASS2**
- **Enterprise Service Bus - ESB**
- **Hardware acquisitions**
- **Contractor labour**
- **Miscellaneous**

- **Password synch with AD - moving to full 2-way synch and password expiry management**
- **Expanding business system authentication and setting policy standards**

## *Background.....*

- **Powerful integration tool, part of a SOA architecture**
- **Not technology centric, can integrate across multiple platforms**
- **DCS have acquired and deployed ESB and Websphere Process Server (WPS)**
- **Opportunities exist for vendors in the integration space**

# Hardware Acquisitions...

- **Blade servers to expand the current VMware environment**
- **RFQ for physical stand alone servers**
- **Upgrade of data centre batteries to extend uptime**
- **Future SAN disk acquisitions under contract with HDS**
- **Network Switches – 10 GB**
- **Racks**

- Critical need for quality project mgt and BA resources within govt
- DCS running indigenous, graduate and apprenticeship programs for technical IT resources

- *Green IT Initiatives*
- *Second site / disaster recovery options for Chan*
- *Sharepoint Development*
